### SISKIYOU PAVING

#### FUND BILL DEFERRED

Salem, Ore.—After a stormy debate, the house Thursday sent back to the committee on roads and highways a bill introduced by Representative Vawter, authorizing the state highway commission to expend 20 per cent of its funds for the biennium to aid Jackson county in completing the Pacific highway over the Siskiyou mountains.

Vawter, in championing his bill, declared that Jackson county had expended \$200,000 under the direction of the state highway commission in building a link of the Pacific highway over the mountains and that it would require \$175,000 more to connect it with the link of the road being built in California. He represented that the county would not be able to make any more expenditure should it so desire. Porter, of Douglas, fought the bill, declaring that his county would need aid from the commission in building the Pacific highway. He called attention to the fact that Jackson county received aid last year from the commission, and that Douglas received none. Upon the conclusion of the debate the bill was referred to the committee on roads and highways, that the representatives of Jackson, Douglas and Josephine counties might consider it, and if possible map out some plan looking to the completion of the road.

The annual inspection of the local company of the Coast Artillery Corps is scheduled for tonight at the armory. The boys have the company in good shape and expect a good report. Captain Collins will be the inspecting officer.

## Hosler Advises Fishing Equipment

Harry Hosler of the Ewauna cigar and sporting goods store, who is one of the most successful anglers of southern Oregon and is considered as an authority on the subject of fish and fishing, gives the following list of necessary tackle and equipment for snaking out the elusive denizens of the creeks and rivers of the valley: The pole should be of a fair weight and can be either a common bamboo or the more expensive split bamboo jointed rod. The line should be of good quality and should be able to stand a test of thirty pounds. The matter of a reel is optional with the fisherman, some preferring one kind and some another, but a good reel adds considerably to the sport. The hook should be a number two and the bait used fresh salmon eggs. About six feet of leader and a sinker consisting of two buckshot complete the outfit necessary. Many other conveniences and knickknacks may be added which will add to the pleasure of the excursion. A plentiful supply of fish eggs should be taken along, as nothing is so aggravating as running out of bait. Another necessity which should be mentioned is a fishing license, which costs one dollar one license, however, allowing the holder to fish during the entire current year.

Our expert failed to mention one very necessary adjunct, without which any all-day trip would be insipid and unenjoyed, and that is a great big lunch. The writer, who has tried it and knows, would suggest that the prospective fisherman take about twice as much food as he deems necessary, and even then there will not be any crumbs left.

Bear creek is lined with fishermen from here every day lately and nearly all are having fine success. Some big fish are being brought in, and of course numerous monsters are hooked but lost.

## Local and Personal

Miss Vivian Greer, who underwent a serious operation at the Ashland Sanitarium last Tuesday for ulcer of the stomach, is now practically beyond the danger point and is getting on splendidly. Drs. Jarvis and Boslough, of whom one of their patients now in the hospital says "are perfect geniuses in medicine and surgery," performed the operation.

Marion Hodgson of Ashland is playing first violin in the Oregon Agricultural College orchestra. The orchestra has only fifteen members and to be picked for this select musical organization is considered a high honor in musical circles.

Mr. and Mrs. J. E. Barrett returned last Wednesday from a several weeks' trip through California. Rains and floods interfered somewhat with their sightseeing, but they report a fine trip nevertheless. They visited with several old friends at different California points.

Mr. and Mrs. A. P. Knowles and daughter Alberta of Mapleton, who spent the past four months here, left Saturday for the coast country. They will visit relatives in Cottage Grove and Eugene before returning home. Mr. Knowles was much improved in health by his brief stay here, and it is probable he will return later and become a permanent resident.

A. A. Bernard of Medford is filling much space in both the Medford and San Francisco papers with the stories of how he was buncoed out of \$3,000 by "friends" in the big, mean city. The tale reads like a Wallingford story. Bernard fell easy prey to an old gag of putting up money for some new-made friends to bet, and has seen neither friends nor money since.

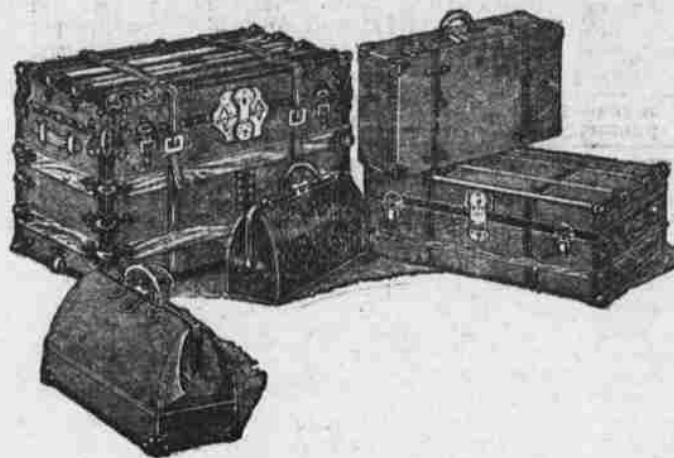

Francis H. Penniston, cousin of our S. Penniston, is a candidate for councilman from the second district town of LaSalle, just outside of Montreal. We received a paper showing his photograph, and while he is not as good looking as our Penniston, he looks businesslike and councilmanic timber.

Now is your chance, girls. The Tidings will give 2,000 extra votes for every new subscription for one year which is brought in on Friday, February 19. The subscriber must be a new one, that is must not have taken the Tidings during the past three months. This is a chance to roll up a bunch of votes. Don't let the other girl get the jump on you.

Robert Throne, a local boy who is attending Oregon Agricultural College, has been appointed as alternate to the guides that will be sent from the college to the exposition. Thirty-eight guides were appointed, mostly seniors, and twenty-two alternates. Throne is a freshman. Three hundred applied for the examination. Throne will be sent down in case some of the regulars are unable to go.

# Trunk and Suit Case Sale

For this week only we offer these special reductions in these traveling necessities. On top of these low prices we offer a special inducement to buy this week: 500 EXTRA EXPOSITION VOTES FREE.

## "Put on another Squeegie"

One of the strongest proofs of tire value is the desire of the man who has been using tires of a certain kind to have others of the same kind put on his car when he needs new ones.

The man who says, "Put on another Squeegie" when he drives his car into the garage, registers the highest possible endorsement of Diamond Tires.

Read this letter from a Tire Dealer:

"Oakland, Cal., Nov. 24, 1914. "Our customers are more than satisfied with the service they are getting from Diamond Tires, and some of the reports of mileage received are wonderful. The best evidence of this is the fact that we seldom have to solicit repeat orders. They come to us voluntarily. 'Put on another Squeegie' is generally their first greeting on entering the store, and they leave with a smile, feeling that their trouble is over for a long time, and each a Diamond booster."

"RECORD TIRE COMPANY, "Per A. J. Donovan."

In addition to the extraordinary mileage and freedom from trouble that you get in Diamond Squeegie Tread Tires, you can now buy them at the following

"FAIR-LIST" PRICES:

Size	Diamond Squeegie	Size	Diamond Squeegie
30 x 3	\$ 9.45	34 x 4	\$20.35
30 x 3 1/2	12.20	36 x 4 1/2	28.70
32 x 3 1/2	14.00	37 x 5	33.90
33 x 4	20.00	38 x 5 1/2	46.00

### BATTLESHIP HAS

#### FOUR OF OLD CREW

San Diego, Cal.—Ten veterans, who were members of the famous war dog's crew when she made her memorable 1,300-mile run around Cape Horn in 1898, were on the battleship Oregon when the sturdy vessel entered the harbor here January 27 to do honor to the San Diego exposition, and many more have joined the ship during her stay in port. The veterans have enlisted for the full four-year term, but will be honorably discharged when the Oregon returns to the Pacific coast after her trip through the Panama canal with President Wilson and the great international armada.

Get scale receipts, legal blanks, etc., at the Tidings office.
